

# Bubbles

Learned about fizzy bubbles yesterday morning.

- \*Water bottles with the bottom cut off

- \*Washcloth held to the bottom of the water bottle with a rubber band.

- \*pan filled with 1/4 cup corn syrup, 1/2 cup of dish soap, and 1 1/2 cups of water.

The kiddos dipped their bottles in the pan and then blew through the top of the bottle.

Result was fizzy bubbles.

We talked about how it worked and had some bubble fun.

# HOW TO DYE EGGS WITHOUT A KIT

## *Ingredients:*

- Hard-boiled eggs
- Food coloring
- White vinegar

## *Instructions:*

Bring a large pot of water to a boil.

Measure 1/2 cup of boiling water into a canning jar or another heat-safe container. Then, add one teaspoon of vinegar and 10-20 drops of food coloring. Repeat to [create](#) additional colors. If you're dyeing eggs with kids, allow the dyes to cool before proceeding.

Soak the eggs in the dye for around five minutes. Flip the eggs halfway through, to ensure both sides are well coated.

Place the dyed eggs back in their carton, and allow them to dry before handling.

# Paper Handprint Bunnies

These handprint bunnies are so simple to make and they are SO CUTE! You can make them using construction paper, coloured printer paper, or even plain white paper if you're in a pinch. This is such a simple Easter craft that you can make – and the best part is that you probably have everything you need at home already!
